

# ANTHONY ASHMORE

5400 S Harper Ave, Unit 1102, Chicago, 60615 IL  
+1 267 521 6396 | [ashmore@uchicago.edu](mailto:ashmore@uchicago.edu)

## ACADEMIC POSITIONS

---

<b>Sorbonne Université</b> , Paris, France <i>Marie Curie Global Fellow</i>	2023 to 2024
<b>University of Chicago</b> , Chicago, USA <i>Kadanoff Fellow</i>	2022 to 2023
<b>University of Chicago</b> , Chicago, USA <i>Marie Curie Global Fellow</i>	2020 to 2022
<b>University of Pennsylvania</b> , Philadelphia, USA <i>Postdoctoral Research Fellow</i>	2019 to 2020
<b>University of Oxford</b> , Oxford, UK <i>Junior Research Fellow, Merton College</i>	2016 to 2019

## EDUCATION

---

<b>Imperial College London</b> , London, UK <i>PhD, Theoretical Physics</i> <ul style="list-style-type: none"><li>• “Generalised geometry for supersymmetric flux backgrounds” with Prof. Daniel Waldram</li></ul>	Sep 2012 to Nov 2016
<b>Princeton University</b> , Princeton, New Jersey, US <i>MA, Physics</i> <ul style="list-style-type: none"><li>• Enrolled as PhD student; studies interrupted to return to UK</li></ul>	Sep 2011 to Aug 2012
<b>University of Oxford</b> , Oxford, UK <i>MPhys (Hons), Physics, First Class</i> <ul style="list-style-type: none"><li>• MPhys project: “Topics in gauge theories, geometry and string theory” with Prof. Yang-Hui He</li></ul>	Sep 2007 to June 2011

## PUBLICATIONS

---

- [1] “ $N = (2, 0)$  AdS<sub>3</sub> Solutions of M-theory”, A. Ashmore [[arXiv:2209.10680](https://arxiv.org/abs/2209.10680) [[hep-th](#)]].
- [2] A. Ashmore, “Calabi-Yau metrics, CFTs and random matrices” in *Nankai Symposium on Mathematical Dialogues*. [[arXiv:2202.05896](https://arxiv.org/abs/2202.05896) [[hep-th](#)]].
- [3] “Calabi-Yau Metrics, Energy Functionals and Machine-Learning”, A. Ashmore, L. Calmon, Y.-H. He, and B. A. Ovrut [[arXiv:2112.10872](https://arxiv.org/abs/2112.10872) [[hep-th](#)]].
- [4] “Exactly Marginal Deformations and Their Supergravity Duals”, A. Ashmore, M. Petrini, E. L. Tasker, and D. Waldram, *Phys. Rev. Lett.* **128** 19, (2022) 191601, [[arXiv:2112.08375](https://arxiv.org/abs/2112.08375) [[hep-th](#)]].
- [5] “Machine learning line bundle connections”, A. Ashmore, R. Deen, Y.-H. He, and B. A. Ovrut, *Phys. Lett. B* **827** (2022) 136972, [[arXiv:2110.12483](https://arxiv.org/abs/2110.12483) [[hep-th](#)]].

#### GRANTS AND FUNDING

---

<b>Marie Curie Individual Fellowship:</b> €260,000	2020 to 2023
<i>Global Fellowship for three-year research programme at the University of Chicago and Sorbonne Université</i>	
<b>Grant for Short Term Scientific Mission:</b> €1,150	Jan 2016
<i>Awarded by COST Action MP1210, for visit to LPTHE at UPMC, Paris</i>	
<b>EPSRC Prize Studentship</b>	2012 to 2016
<i>Awarded for PhD study, one of seven university wide</i>	

#### TEACHING AND MENTORING EXPERIENCE

---

<b>Tutor</b> , Merton College, Oxford	Spring 2019
<i>Third-year undergraduate tutorials on General Relativity and Cosmology</i>	

<b>Lecturer</b> , Mathematical Institute, Oxford	Autumn 2018
<i>Course lecturer and assessor for General Relativity I graduate course</i>	
<b>Tutor</b> , Merton College, Oxford	Autumn 2018
<i>Second-year undergraduate tutorials on Mathematical Methods</i>	
<b>College mentor</b> , Merton College, Oxford	Autumn 2017 to present
<i>College subject mentor providing supplementary academic support to undergraduates</i>	
<b>Class tutor</b> , Mathematical Institute, Oxford	Autumn 2017 to Summer 2018
<i>Intercollegiate classes for General Relativity I and General Relativity II graduate courses</i>	
<b>Tutorial assistant</b> , Imperial College London	2012 to 2015
<i>First- and second-year undergraduate tutorials covering classical mechanics, quantum mechanics, thermodynamics, statistical mechanics and nuclear physics</i>	

#### AWARDS AND PRIZES

---

<b>Departmental Teaching Award</b> , Mathematical Institute, Oxford	2019
<i>Awarded for lecturing of General Relativity I graduate course</i>	

#### PROFESSIONAL ACTIVITIES AND ACADEMIC SERVICE

---

<b>Seminar organiser</b>	2021 to present
<i>Organiser for Particle Theory Seminar series at University of Chicago</i>	
<b>External examiner</b>	Aug 2021
<i>External examiner for masters thesis at University of Stavanger, Norway</i>	
<b>Outreach</b>	Oct 2020
<i>High-school talk for Women in Math Honor Society students on string theory and uses of mathematics</i>	
<b>Reviewer</b>	2018 to present
<i>Referee for Annales Henri Poincaré, Journal of Symbolic Computation, and Symmetry, Integrability and Geometry: Methods and Applications</i>	
<b>Undergraduate interviews</b> , Merton College, University of Oxford	Dec 2018
<i>Interviewer and assessor for undergraduate applicants in physics</i>	
<b>Workshop organiser</b> , South East Mathematical Physics Seminars	Jul 2018
<i>Organiser of the 12th meeting of the South East Mathematical Physics Seminar</i>	
<b>General interest talk</b> , Merton College, University of Oxford	Jun 2018
<i>Presentation on string theory and my work for a general audience</i>	
<b>Oxford string theory website</b> , University of Oxford	2018 to 2019
<i>Web administrator for string theory group website</i>	
<b>Library committee</b> , Merton College, University of Oxford	2018 to 2019
<i>Committee member on matters relating to the college library and archives, including approving annual budget and publication rights</i>	
<b>Gardens committee</b> , Merton College, University of Oxford	2017 to 2019
<i>Committee member on matters relating to the maintenance and amenity of the college gardens and grounds</i>	
<b>Outreach</b>	2014 to present
<i>Interviewed for podcasts discussing black holes and symmetries in nature</i>	

#### CONFERENCE PRESENTATIONS

---

“Calabi–Yau Metrics, CFTs and Random Matrices”	Dec 2021
<i>Plenary talk, string.data.2021, University of Cape Town, South Africa</i>	
“Calabi–Yau metrics: what are they good for?”	Aug 2021
<i>Plenary talk, Nankai Symposium, Nankai University, Tianjin</i>	

“Numerical metrics and the swampland distance conjecture” <i>Plenary talk, String Pheno 2021, Virtual</i>	July 2021
Discussion session on numerical metrics <i>Simons Collaboration on Special Holonomy in Geometry, Analysis and Physics, Virtual</i>	May 2021
“Moduli and obstructions from a heterotic superpotential” <i>String Theory, Geometry and String Model Building, Mainz</i>	Sep 2018
“Moduli and obstructions of $N = 1$ heterotic backgrounds” <i>String Pheno 2018, Warsaw</i>	July 2018
“Generalising Calabi–Yau for generic flux backgrounds” <i>22nd European String Workshop – COST MP1210 Conference, University of Milano–Bicocca</i>	Feb 2017
“Marginal deformations from generalised geometry” <i>Strings, Cosmology and Gravity Student Conference, Institut Henri Poincaré</i>	Feb 2017
“Generalised geometry and supersymmetric flux backgrounds” <i>The Particle Physics and Cosmology of Supersymmetry and String Theory, DESY Hamburg</i>	Mar 2015
“Supergravity backgrounds and generalised geometry” <i>London Student Triangle, Imperial College London</i>	Nov 2014
“The geometry of supersymmetric AdS backgrounds” <i>Strings, Cosmology and Gravity Student Conference, Max Planck Institute for Physics, Munich</i>	Nov 2013

#### INVITED SEMINARS

---

“Deformed $N=1$ SCFTs and their Supergravity Duals” <i>Exceptional Geometry Seminar Series</i>	May 2022
“Deformed $N=1$ SCFTs and their Supergravity Duals” <i>String Phenomenology Seminar Series</i>	April 2022
“Exactly Marginal Deformations and their Supergravity Duals” <i>Joint Israeli High Energy Seminar</i>	March 2022
“Machine Learning for Calabi-Yau Compactifications” <i>Joint Edinburgh Mathematical Physics Group Seminar</i>	Nov 2021
“Calabi–Yau Metrics, CFTs and Random Matrices” <i>String Theory Seminar at Imperial College London</i>	Oct 2021
“Calabi–Yau Metrics, CFTs and Random Matrices” <i>Joint Geometry Fields and Strings Seminar at University of New England</i>	Sept 2021
“Calabi-Yau metrics: what are they good for?” <i>String Theory Seminar at University of Vienna</i>	May 2021
“Calabi-Yau metrics: what are they good for?” <i>High-Energy Theory Seminar at University of Liverpool</i>	May 2021
“Calabi-Yau metrics: what are they good for?” <i>String Theory Seminar at Virginia Tech</i>	Apr 2021
“Calabi-Yau metrics, machine learning, and the spectrum of the Laplace operator” <i>High-Energy Theory Seminar at KEK Theory Center</i>	Feb 2021
“Moduli of general $N = 1$ heterotic backgrounds” <i>Mathematical Physics Seminar at University of Surrey</i>	Oct 2018
“Moduli of general $N = 1$ heterotic backgrounds” <i>String Theory Seminar at Enrico Fermi Institute, University of Chicago</i>	Apr 2018
“Marginal deformations from generalised geometry” <i>Joint Edinburgh Mathematical Physics Group Seminar</i>	Feb 2018

“Generalising Calabi–Yau for generic flux backgrounds” <i>String Theory Seminar at Queen Mary University of London</i>	Jan 2016
“Generalising Calabi–Yau for generic flux backgrounds” <i>String Theory Seminar at LMU Munich</i>	Nov 2015
“Generalising Calabi–Yau for generic flux backgrounds” <i>Paris String Theory Seminar at Ecole Normale Supérieure</i>	Nov 2015
“Generalising Calabi–Yau for generic flux backgrounds” <i>String Theory Seminar at Mathematics Department, University of Oxford</i>	Oct 2015
