

# ANTHONY ASHMORE

5400 S Harper Ave, Unit 1102, Chicago, 60615 IL  
+1 267 521 6396 | [ashmore@uchicago.edu](mailto:ashmore@uchicago.edu)

## ACADEMIC POSITIONS

---

|  |              |
|--|--------------|
| <b>Sorbonne Université</b> , Paris, France<br><i>Marie Curie Global Fellow</i>               | 2023 to 2024 |
| <b>University of Chicago</b> , Chicago, USA<br><i>Kadanoff Fellow</i>                        | 2022 to 2023 |
| <b>University of Chicago</b> , Chicago, USA<br><i>Marie Curie Global Fellow</i>              | 2020 to 2022 |
| <b>University of Pennsylvania</b> , Philadelphia, USA<br><i>Postdoctoral Research Fellow</i> | 2019 to 2020 |
| <b>University of Oxford</b> , Oxford, UK<br><i>Junior Research Fellow, Merton College</i>    | 2016 to 2019 |

## EDUCATION

---

|  |                       |
|--|-----------------------|
| <b>Imperial College London</b> , London, UK<br><i>PhD, Theoretical Physics</i> <ul style="list-style-type: none"><li>• “Generalised geometry for supersymmetric flux backgrounds” with Prof. Daniel Waldram</li></ul>                | Sep 2012 to Nov 2016  |
| <b>Princeton University</b> , Princeton, New Jersey, US<br><i>MA, Physics</i> <ul style="list-style-type: none"><li>• Enrolled as PhD student; studies interrupted to return to UK</li></ul>   | Sep 2011 to Aug 2012  |
| <b>University of Oxford</b> , Oxford, UK<br><i>MPhys (Hons), Physics, First Class</i> <ul style="list-style-type: none"><li>• MPhys project: “Topics in gauge theories, geometry and string theory” with Prof. Yang-Hui He</li></ul> | Sep 2007 to June 2011 |

## PUBLICATIONS

---

- [1] “Calabi-Yau Metrics, Energy Functionals and Machine-Learning”, A. Ashmore, L. Calmon, Y.-H. He, and B. A. Ovrut [[arXiv:2112.10872](#) [[hep-th](#)]].
- [2] “Exactly Marginal Deformations and their Supergravity Duals”, A. Ashmore, M. Petrini, E. Tasker, and D. Waldram [[arXiv:2112.08375](#) [[hep-th](#)]].

#### GRANTS AND FUNDING

---

|   |              |
|---|--------------|
| <b>Marie Curie Individual Fellowship:</b> €260,000  | 2020 to 2023 |
| <i>Global Fellowship for three-year research programme at the University of Chicago and Sorbonne Université</i> |              |
| <b>Grant for Short Term Scientific Mission:</b> €1,150  | Jan 2016     |
| <i>Awarded by COST Action MP1210, for visit to LPTHE at UPMC, Paris</i>   |              |
| <b>EPSRC Prize Studentship</b>  | 2012 to 2016 |
| <i>Awarded for PhD study, one of seven university wide</i>  |              |

#### TEACHING AND MENTORING EXPERIENCE

---

|   |                        |
|---|------------------------|
| <b>Tutor</b> , Merton College, Oxford   | Spring 2019            |
| <i>Third-year undergraduate tutorials on General Relativity and Cosmology</i> |                        |
| <b>Lecturer</b> , Mathematical Institute, Oxford                              | Autumn 2018            |
| <i>Course lecturer and assessor for General Relativity I graduate course</i>  |                        |
| <b>Tutor</b> , Merton College, Oxford   | Autumn 2018            |
| <i>Second-year undergraduate tutorials on Mathematical Methods</i>            |                        |
| <b>College mentor</b> , Merton College, Oxford                                | Autumn 2017 to present |

*College subject mentor providing supplementary academic support to undergraduates*

**Class tutor**, Mathematical Institute, Oxford

Autumn 2017 to Summer 2018

*Intercollegiate classes for General Relativity I and General Relativity II graduate courses*

**Tutorial assistant**, Imperial College London

2012 to 2015

*First- and second-year undergraduate tutorials covering classical mechanics, quantum mechanics, thermodynamics, statistical mechanics and nuclear physics*

---

#### AWARDS AND PRIZES

**Departmental Teaching Award**, Mathematical Institute, Oxford

2019

*Awarded for lecturing of General Relativity I graduate course*

---

#### PROFESSIONAL ACTIVITIES AND ACADEMIC SERVICE

**Seminar organiser**

2021 to present

*Organiser for Particle Theory Seminar series at University of Chicago*

**External examiner**

Aug 2021

*External examiner for masters thesis at University of Stavanger, Norway*

**Outreach**

Oct 2020

*High-school talk for Women in Math Honor Society students on string theory and uses of mathematics*

**Reviewer**

2018 to present

*Referee for Annales Henri Poincaré, Journal of Symbolic Computation, and Symmetry, Integrability and Geometry: Methods and Applications*

**Undergraduate interviews**, Merton College, University of Oxford

Dec 2018

*Interviewer and assessor for undergraduate applicants in physics*

**Workshop organiser**, South East Mathematical Physics Seminars

Jul 2018

*Organiser of the 12th meeting of the South East Mathematical Physics Seminar*

**General interest talk**, Merton College, University of Oxford

Jun 2018

*Presentation on string theory and my work for a general audience*

**Oxford string theory website**, University of Oxford

2018 to 2019

*Web administrator for string theory group website*

**Library committee**, Merton College, University of Oxford

2018 to 2019

*Committee member on matters relating to the college library and archives, including approving annual budget and publication rights*

**Gardens committee**, Merton College, University of Oxford

2017 to 2019

*Committee member on matters relating to the maintenance and amenity of the college gardens and grounds*

**Outreach**

2014 to present

*Interviewed for podcasts discussing black holes and symmetries in nature*

---

#### CONFERENCE PRESENTATIONS

“Calabi–Yau Metrics, CFTs and Random Matrices”

Dec 2021

*Plenary talk, string\_data.2021, University of Cape Town, South Africa*

“Calabi–Yau metrics: what are they good for?”

Aug 2021

*Plenary talk, Nankai Symposium, Nankai University, Tianjin*

“Numerical metrics and the swampland distance conjecture”

July 2021

*Plenary talk, String Pheno 2021, Virtual*

Discussion session on numerical metrics

May 2021

*Simons Collaboration on Special Holonomy in Geometry, Analysis and Physics, Virtual*

“Moduli and obstructions from a heterotic superpotential”

Sep 2018

|  |            |
|--|------------|
| <i>String Theory, Geometry and String Model Building, Mainz</i>                                    |            |
| “Moduli and obstructions of $N = 1$ heterotic backgrounds”   | July 2018  |
| <i>String Pheno 2018, Warsaw</i>   |            |
| “Generalising Calabi–Yau for generic flux backgrounds”   | Feb 2017   |
| <i>22nd European String Workshop – COST MP1210 Conference, University of Milano–Bicocca</i>        |            |
| “Marginal deformations from generalised geometry”  | Feb 2017   |
| <i>Strings, Cosmology and Gravity Student Conference, Institut Henri Poincaré</i>                  |            |
| “Generalised geometry and supersymmetric flux backgrounds”   | Mar 2015   |
| <i>The Particle Physics and Cosmology of Supersymmetry and String Theory, DESY Hamburg</i>         |            |
| “Supergravity backgrounds and generalised geometry”  | Nov 2014   |
| <i>London Student Triangle, Imperial College London</i>  |            |
| “The geometry of supersymmetric AdS backgrounds”   | Nov 2013   |
| <i>Strings, Cosmology and Gravity Student Conference, Max Planck Institute for Physics, Munich</i> |            |
| INVITED SEMINARS   |            |
| “Deformed $N=1$ SCFTs and their Supergravity Duals”  | April 2022 |
| <i>String Phenomenology Seminar Series</i>   |            |
| “Exactly Marginal Deformations and their Supergravity Duals”                                       | March 2022 |
